NANDU, A GREATER ONE HORNED RHINOCEROS, ARRIVES AT SAFARI NIAGARA

Stevensville, ON (June 18, 2019) Safari Niagara, a 150-acre Nature Park, welcomes "Nandu" a 3-year-old male, Greater One Horned Rhinoceros to their facility. Nandu arrived on June 5, 2019 from the Toronto Zoo.

Safari Niagara has a 30-day quarantine procedure for the arrival of all new animals into the collection where he will be monitored closely by both Safari Niagara and veterinarian staff.

Safari Niagara already has one male Greater One Horned Rhinoceros (*Sabari*) at their facility. Due to the solitary nature of this species only one Rhino can be out on exhibit at a time. The other will have access to another outside holding area in the keeper area of the Rhino House.

We are asking for your understanding and patience during this time, as Nandu will be off exhibit temporarily while he adjusts to his new keepers and his environment.

ABOUT SAFARI NIAGARA

Safari Niagara is a 150-acre family-owned and operated nature park that is home to more than 1000 animals, reptiles and birds. Visitors of all ages and abilities can experience the park's wild inhabitants on their own or through free, educational daily keeper talks, narrated tram rides, and behind the scenes tours.
